## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

### ***Response to Amendment***

2. Applicant's amendment filed on March 28, 2006 has been entered. Claim 17 has been amended. Claim 28 has been cancelled. No claim has been added. Claims 17-27 are still pending in this application, with Claim 1 being independent.

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given in a telephone interview with Richard R. Diefendorf (Reg. No. 32,390) on April 18, 2006.

4. The application has been amended as follows:

Claim 17 A wood-based decorative article comprising:  
a veneer formed by slicing wood and being light permeable;  
a substrate formed of a transparent synthetic resin and joined to a rear surface of said veneer, said substrate having rigidity and a larger thickness than that of said veneer;  
a transparent reinforcing member for reinforcing said veneer interposed between said veneer and said substrate; and  
an a transparent adhesive by which the reinforcing member is bonded to the veneer.

***Allowable Subject Matter***

5. Claims 17-27 are allowed.

6. The following is an examiner's statement of reasons for allowance:

Applicant teaches a wood-based decorative article including a light-permeable wood veneer, a transparent synthetic resin substrate, a transparent reinforcing member between the veneer and the substrate, and a transparent adhesive bonding the reinforcing member to the veneer. The substrate is rigid and thicker than the veneer.

**Lenderink** (U.S. Pat. 5,194,310) disclose a decorative article including a light-permeable wood veneer and a transparent substrate bonded to the veneer by a transparent adhesive. However, the cited reference fails to disclose, or even suggest, a reinforcing member in addition to the substrate.

**Ohsumi et al.** (U.S. Pat. 5,338,592) disclose a decorative article including a wood veneer, a transparent substrate, and a reinforcing member bonded to the veneer by an adhesive. However, the cited reference fail to disclose, or even suggest, a the decorative article being transparent.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically a transparent reinforcing member bonded to the veneer by a transparent adhesive, in combination with the recited structural limitations of the claimed light-permeable wood-based decorative article.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
